Accountant

With an eye for creative details

I love details. I thoroughly enjoy it when I find something weird or “off,” chasing the details and finding out exactly why it is that way, or what needs to happen in order to fix it. Finding structure in chaos and injecting logic and order into otherwise complex situations is what I do.

Skills

- Excellent interpersonal relations
- Familiar with both manual and computer bookkeeping systems
- Detail-oriented
- Friends with numbers
- Solid communication skills
